

Have you ever had a heart attack?

Are you a non-smoker over 50?

Suffering from Diabetes?

TACT2, the Trial to Assess Chelation Therapy 2, is a clinical trial involving doctors in the U.S. and Canada who will test the effectiveness of an alternative therapy for the treatment of Diabetes and Heart Disease.

Dr. S. Bergman is an MD and site principal investigator for the study. He is the medical director of Chelox Clinics and is Board Certified in Anti-Aging Medicine. Dr. Bergman served as chairman of the Oral Board Exams for the American Academy of Anti-Aging Medicine from 2000 to 2007 and is a Diplomat of the American Board of Chelation Therapy.
